

OFFICE OF TECHNICAL SERVICES FUNCTIONS

The Office of Technical Services performs the following functions:

Develop the statewide Capital Improvement Plan (CIP) for aviation needs and provide airport sponsor guidance. Prepare and Manage the State Aeronautics Program.

Provide engineering assistance to local governments on airport capital improvement projects under the California Aid to Airports Program (CAAP).

Review or manage State general aviation loans and Acquisition & Development grants

Develop and manage federal grant contracts awarded from the Federal Aviation Administration Airport Improvement Program to support general aviation.

Manage Airport IQ System Management (ASM) database and provide technical assistance to airport sponsors to update airport CIP project lists.

Conduct public meetings to share information with stakeholder groups in conjunction with the Federal Aviation Administration, the Association of California Airports, and other aviation organizations.

Evaluate land use compatibility and proposed school sites near airports by developing site specific maps using AutoCAD.

Maintain and update the Airport Pavement Management System (APMS) that identifies needs and estimates capital outlay costs.
